Our vision is a world in which all entrepreneurial men and women have access to the financial services that can help them provide for themselves and their families.

Triple Jump Mission

Mission and Vision

Mission

Triple Jump's mission is to contribute to the sustainable development of emerging market economies by facilitating investment in micro and small enterprises. Triple Jump seeks to support the expansion of viable microfinance institutions in all three stages of their development (emerging, expanding and mature) by providing capital and advisory services. Our objective is to work towards effective social impact in emerging markets by harnessing entrepreneurial spirit. We focus on MFIs which are committed to:

- Reducing poverty in their society
- Reaching low-income and vulnerable groups, particularly women
- Respecting society and the environment
- Achieving maximum efficiency, financial sustainability and outreach.

Vision

Our vision is a world in which all entrepreneurial men and women have access to the financial services that can help them provide for themselves and their families.

Philosophy

Triple Jump believes that access to financial services can contribute to help entrepreneurial men and women provide for their families and meet their business needs. We aim to improve access to financial services for the world's poor by contributing to the growth and reinforcement of the microfinance sector. We work with MFIs to realize their full potential through:

- Advisory services to improve the performance of the institution
- Equity to strengthen the capital base
- Loans to enlarge the microfinance portfolio.

Triple Jump operates at the interface of commercial and development work. On the one hand, we see ourselves as entrepreneurs with a strong focus on results and solutions. We are constantly on the lookout for new, promising MFIs, which we can help to grow and become more professional. On the other hand, we never lose sight of our social objectives and integrity. This is reflected in the high international business standards we uphold, in the transparency of our activities, and in the importance we attach to equality in the relationship with our stakeholders. Sustainable development is our goal. Sustainable development for small entrepreneurs in developing countries, for MFIs, for our stakeholders and for ourselves.

News

Stable Returns, Positive Outlook

FEBRUARY 2012 – Dear Readers, 2011 proved to be a good year for the microfinance industry across the board. In most of the 57 countries where Triple Jump is active, the microfinance sector showed a healthy growth and was hardly affected by the ongoing financial crisis in the Euro zone and the United States. MFI demand for funding increased steadily in 2011, leading to lower levels of liquidity on the balance sheets of the Microfinance Investment Vehicles (MIVs) for the first time in years. As a result of lower liquidity levels we can expect spreads to increase this year.

MFIs Move into SMEs

FEBRUARY 2012 – Microfinance Institutions are very interested in upscaling their services for Small and Medium Enterprises (SMEs) and in helping to close the much-debated credit gap. This can be concluded from a survey of Triple Jump's clients by Triple Jump Advisory Services.
